

Senator Joe Griffo (R, New York)

**Deputy Senate Majority Whip
Chair of the Senate Energy and Telecommunications Committee**

Verbal feedback from the July Legislative Academy:

“I was pleased to be a part of the first Clean Energy Legislative Academy, and I want to commend Governor Ritter and all of his staff for putting together such an outstanding conference. The Center did an extraordinary job bringing a variety of people with expertise in many areas of energy, which is a very important issue for all of us across our nation. Once again, I want to complement Governor Ritter and all of the staff at the Center for putting together a very useful, productive, and informative event over the last three days where we got a chance to meet, share, and discuss with colleagues across the county what is taking place in different states and to listen to experts in various areas of energy policy. Hats off for an outstanding job, and I know it's only going to get better but it's going to be hard to do, because you did a great job.”
